WHAT exactly is community food for all?

A local food network supporting activities that improve access to healthy, affordable food across the Rural City of Wangaratta.

Whose involved with the community food for all (CFFA)?

CFFA is a local food network of people, agencies and groups who are interested in improving access to healthy and affordable food in Wangaratta and the surrounding rural communities.

The network is represented by the following sectors:

- health services
- welfare services
- community services
- service clubs
- education
- government
- neighbourhood houses
- local producers
- general community

Our objective of the initiative is to assist in the sharing of information, resources and to strengthen partnerships.

Our goal is to strengthen and sustain our local food system and advocate for improvements.

What do we do?

Community partnerships are enabling local food initiatives to get underway e.g. food swaps, farmers market, fruit and veg boxes, breakfast clubs, community refrigerated vehicle, preparation and distribution of healthy meals in the community, collaborative grant applications, access to food skills.

When do we meet?

1. Forums are hosted bi-monthly at various venues and anyone with an interest in healthy food is welcome to attend.

Participants are encouraged to discuss their food related opportunities and challenges. A guest speaker may also be engaged to present at the forum.

2. The Steering Committee is made up of representatives from each of the sectors. The Steering Committee is guided by the information gathered at the forum.
